

WHAT YOU CAN DO TO HELP SLOW THE SPREAD

COVID-19 can spread between people in close proximity – speaking, coughing, sneezing – even if you are not exhibiting any symptoms

- Wear a mask (surgical or homemade/cloth) – it protects you and me
- Social distance – try and remain 6 feet apart from others
- Wash your hands regularly
- Choose outdoor activities instead of indoors
- Stay home when you feel sick

HOW IS COLUSA DOING?

See for yourself! We have statistics and easy to read graphs!

WHAT COLUSA COUNTY IS DOING?

Since the start of the COVID-19 (Coronavirus) outbreak, Colusa County has taken a proactive approach to prepare for and carefully monitor potential positive cases in our community.

- Maintaining regular contact and following the guidance from the CDC and the California Department of Public Health (CDPH)
- Distributing information, supplies, and updates to health care professionals and educational settings
- Ensuring providers have access to public health staff for consultation to quickly identify symptomatic patients and that they have the ability to test those patients if warranted
- Reviewing and adapting the County's current pandemic plans for COVID-19 involving contact tracing
