**RECITALS**

- A. On August 29, 2014, the California Legislature passed comprehensive groundwater legislation contained in SB 1168, SB 1319 and AB 1739. Collectively, those bills, as subsequently amended, enacted the “Sustainable Groundwater Management Act,” or “SGMA.” Governor Brown signed the legislation on September 16, 2014, and it became effective on January 1, 2015.
- B. Each of the Members overlies the Colusa and Yolo County portions of the Colusa Subbasin of the Sacramento Valley Groundwater Basin, California Department of Water Resources Basin No. 5-021.52, or the Colusa County portion of the West Butte Subbasin of the Sacramento Valley Groundwater Basin, Department of Water Resources Basin No. 5-021.58, as such subbasin boundaries may be modified from time to time in accordance with Cal. Water Code Section 10722.2 (“Basin”).
- C. Each of the Members is authorized to become, or participate in, a Groundwater Sustainability Agency (“GSA”) under SGMA.
- D. The Members desire, through this Agreement, to form the Colusa Groundwater Authority (“Authority”), a separate legal entity, for the purpose of acting as the GSA for the Basin.
- E. The mission of the Authority is to provide a dynamic, cost-effective, flexible and collegial organization to ensure compliance with SGMA within the Basin.
- F. The Authority will serve a coordinating, administrative and implementing role in order to provide for sustainable groundwater management of the Basin. Each of the Members (or groups of Members) will have responsibilities to carry out the Groundwater Sustainability Plan and to coordinate with the Authority to implement SGMA within the Members’ jurisdictional areas.
- G. This Agreement shall form the Authority, which shall be the GSA for purposes of carrying out SGMA in the Basin.

- a. Provide that any employee of a Member, and subject to a written agreement between that Member and the Authority, may be in the nature of an independent contractor of the Authority, and shall perform, unless

- Alternates to Board members.** The appointing authority of each Member, as set forth above, may appoint an alternate or alternates to the Board. Alternates shall be identified to the Board at the same time as Board appointments, and any modifications to a Member's alternate or alternates as soon as practicable after such modification has been made. Alternates may vote on all matters before the Authority in the absence of the appointed Board member or representative. Each alternate shall be informed of the business of the Authority and the actions to be taken when acting on behalf of a Board member. The Board may in the future adopt additional procedures for the qualification and appointment of alternate Board members, and for the voting rights of such alternates.

4.5 **Quorum.** A majority of the Board of Directors will constitute a quorum for the purpose of conducting business, unless there is an even number of Directors on the Board of Directors, in which case a quorum may be established with half the Board members.

4.6 **Voting.** Except as to actions identified in Section 4.7, the Board of Directors will conduct all business by vote of a majority of the Directors present, if a quorum shall be established, and each Director shall have one (1) vote. Prior to voting, Board members shall endeavor in good faith to reach consensus on the matters to be determined such that any subsequent vote shall be to confirm the consensus of the Board. If any Board member or Member strongly objects to a consensus-based decision prior to a vote being cast, the Board shall work in good faith to reasonably resolve such strong objection, and, if the same is not resolved collaboratively, then the matter will proceed to a vote for final resolution under this Article 4.6 or Article 4.7 below, as applicable.

a. At the first Board meeting following the two-year anniversary of the Effective Date of this Agreement, the Board of Directors shall consider whether to recommend that the voting structure described in this Article 4.6 be modified in any respect. If the Board of Directors recommends such modification, the governing body of each Member shall consider the recommended modification(s) and shall report back to the Board of Directors regarding the Member's position thereon.

4.7 **Supermajority Vote Requirement for Certain Actions.** The following actions will require a two-thirds (2/3) vote of the Directors present:

- a. Approval of the Authority's annual budget and amendments to the annual budget, consistent with Article 5 and **Exhibit E**;

4.9 **Rules, Regulations, By-Laws and Ordinances.** The Board may adopt rules, regulations, by-laws and ordinances to supplement this Agreement and to provide for the effective and efficient administration of the Authority. In the event of conflict between this Agreement and any rule, regulation, by-law, or ordinance, the provisions of this Agreement shall govern.

4.10 **Administrator.** The Members hereby designate Colusa County to serve as administrator of, and keeper of records for, the Authority.

## **ARTICLE 5: FINANCIAL PROVISIONS**

5.1 **Funding; Initial Contributions and Expenses.** Upon execution of this Agreement, and for a period not to exceed the earlier of (a) two years or (b) adoption of an alternative funding plan approved by the Board, the Members agree to share the operating and administrative costs of operating the Authority in accordance with the percentages set forth in the Initial Funding and Administrative Services Agreement attached as **Exhibit E** hereto, including **Exhibit F** and **Exhibit G**, which are hereby incorporated into this Agreement. Each Member will make quarterly payments of its share of the operating and administrative costs. Members shall make payments as required in the Funding Agreement within thirty (30) days of the payment accrual dates in the Funding Agreement. Each Member will be solely responsible for identifying and allocating funds for payment of the Member’s share of operating and administrative costs. The obligation of each Member to make payments under the terms and provision of this Agreement is an individual and separate obligation of the Member and not a joint obligation with those of the other Members.

5.2 **Funding Plan; Long-Term Funding.** Upon the formation of the Authority, the Board of Directors shall work diligently on the development, adoption and implementation of a long-term funding plan to cover the operating and administrative costs of the Authority. The long-term funding plan shall supersede and replace the initial funding plan described in section 5.1 above, at the earliest possible date.

- a. The long-term funding plan may include provision for reimbursement or offset of the Members’ initial funding contributions pursuant to section 5.1 above, as authorized by law.

- b. If a long-term funding plan is unlikely to be adopted and implemented within two years of this Agreement, the Board shall meet and confer with the Members to determine how to fund the activities of the Authority beyond the initial two years, or to take other appropriate action including but not limited to, termination of the Authority.
- c. To the extent that the County is engaged to provide long-term services to the Authority pursuant to Article 5.2, the Authority will be charged for services provided consistent with the County's Indirect Cost Allocation Plan. Because charges may be approved by the State up to two years after they are incurred, individual members may be responsible for expenses up to two years after the Authority is dissolved.

**5.3 Indemnification.** Members, Directors, officers, agents and employees of the Authority shall use ordinary care and reasonable diligence in the exercise of their powers, and in the performance of their duties pursuant to this Agreement. To the fullest extent permitted by law, the Authority shall hold harmless, defend and indemnify the Members and their officers, employees and agents, and members of the Board, from and against any liability, claims, actions, costs, damages or losses of any kind, including death or injury to any person and/or damage to property arising out of the activities of the Authority or its Board, officers, employees or agents under this Agreement. These indemnification obligations shall continue beyond the Term of this Agreement as to any acts or omissions occurring before or under this Agreement or any extension of this Agreement.

- a. The Authority shall be required to obtain insurance, or join a self-insurance program in which one or more of the Members participate, appropriate for its operations. Any and all insurance coverages provided by the Authority, and/or any self-insurance programs joined by the Authority, shall name each and every Member as an additional insured for all liability arising out of or in connection with the operations by or on behalf of the named insured in the performance of this Agreement. Minimum levels of the insurance or self-insurance program shall be set by the Authority in its ordinary course of business. The Authority shall also require all of its contractors and subcontractors to have insurance appropriate for their operations.

**5.4 Repayment of Funds.** Unless the Board determines otherwise, no refund or repayment of the initial commitment of funds specified in Article 5.1 will be made to a Member ceasing to be a Member of this Agreement whether pursuant to removal by the Board of Directors or pursuant to a voluntary withdrawal. The refund or repayment of any other contribution shall be made in accordance with the terms and conditions upon which the contribution was made, the terms and conditions of this Agreement or other agreement of the Authority and withdrawing Member.

**5.5 Budget.** The Authority's fiscal year shall run from July 1 through June 30. Each fiscal year, the Board shall adopt a budget for the Authority for the ensuing fiscal year. Within ninety (90) days of the effective date of this Agreement, the Board shall adopt a budget.

Thereafter, a budget shall be adopted no later than March 1 of the preceding fiscal year. A copy of the adopted budget shall be submitted to the County Auditor-Controller for inclusion in the financial system.

5.6 **Alternate Funding Sources.** The Board may obtain State of California or federal grants.

5.7 **Depositary, Treasurer, Auditor and Controller.** The Treasurer of the Authority shall be the County Treasurer, who shall be the depositary and have custody of all money of the Authority, from whatever source, subject to the applicable provisions of any indenture or resolution providing for a trustee or other fiscal agent. All funds of the Authority shall be held in a separate County Trust Fund within the County Treasury in the name of the Authority and not commingled with any other County Fund, funds of any Member, or any other person or entity. In accordance with California Government Code sections 6505 and 6505.5, the County Auditor-Controller shall perform the functions of the Auditor or Controller for the Authority and shall draw warrants to pay demands against the Authority when the demands have been approved by any person authorized to so approve under this Agreement, provided sufficient funds are available. The County Auditor-Controller must be provided in writing the names of authorized individuals and signature samples. Subject to the voting requirements in Article 4.7, the Board may elect to appoint a different Treasurer or person to serve as Auditor and Controller, provided such appointment is subject to the requirements of Government Code sections 6505 and 6505.5.

5.8 **Accounting.** Full books and accounts shall be maintained for the Authority in accordance with practices established by the County Auditor-Controller, in compliance with Accounting Standards and Procedures for Counties and Governmental Accounting Standards Board (GASB). The books and records of the Authority shall be open to inspection by the Members at all reasonable times, and by bondholders and lenders as and to the extent provided by resolution or indenture.

5.9 **Audit.** A qualified firm, serving in the capacity of auditor, shall audit the records and the accounts of the Authority annually in accordance with the provisions of Government Code section 6505. Copies of such audit reports shall be filed with the State Controller and each Member within six months of the end of the Fiscal Year under examination.

5.10 **Expenditures.** All expenditures within the designations and limitations of the applicable approved budget shall be made upon the approval of any officer so authorized by the Board. The Treasurer shall draw checks or warrants or make payments by other means for claims or disbursements not within an applicable budget only upon the approval and written order of the Board. The Board shall requisition the payment of funds only upon approval of claims or disbursements and requisition for payment in accordance with policies and procedures adopted by the Board. All approved and requisitioned payments must be consistent with the County audit and claims process, and are subject to Authority cash balances.

5.11 **No Member Liability.** As provided by Government Code Section 6508.1, the debts, liabilities, and obligations of the Authority shall be the debts, liabilities, and obligations of the Authority only, and not of the constituent Members of the Authority.

## **ARTICLE 6: CHANGES TO MEMBERSHIP, WITHDRAWAL AND TERMINATION**

6.1 **Addition to Membership.** Any local agency within the Basin that is qualified to be a GSA pursuant to Water Code section 10723, and which was not a Member of the Authority at the time of its effective date, is eligible to become a Member of the Authority subject to the requirements in this Article 6.1. Such local agency must notify the Authority in writing of its intent to become a Member, and the Authority shall confirm the local agency's membership in writing within sixty (60) days, provided the local agency's notice of intent includes all of the following verifications:

- a. The local agency is qualified to be a GSA under the applicable requirements of Water Code section 10723;
- b. The local agency agrees to become a Member of and signatory to this Agreement, and subject to all requirements, rights and obligations of this Agreement;
- c. The local agency agrees to contribute a proportionate share of the costs of the Authority, as reasonably determined by the Board of the Authority. Such costs may include, at the discretion of the Board, reasonable reimbursement for costs incurred in the formation and early implementation of the Authority pursuant to Article 5.1 and the Funding Agreement.

The Board's written confirmation of the new membership will serve as an addendum to this Agreement, and to **Exhibit A**, and shall ratify the admission of the new Member to the Authority. Such addendum does not constitute an Amendment of this Agreement, nor does it require separate approval of this Agreement by the Members. Upon written confirmation by the Board of the new membership, such new Member may appoint a Board member and alternates as provided in Article 4.1, and shall be entitled to participate in the Authority as provided herein.

6.2 **Noncompliance; Involuntary Removal.** In the event any Member (1) fails to comply with the terms of this Agreement, or (2) undertakes actions that conflict with or undermine the functioning of the Authority or the preparation or implementation of the GSP, such Member shall be subject to the provisions for involuntary removal of a Member set forth in this Article 6.2. Such actions may include, for example and without limitation, failure to pay its agreed upon contributions when due; refusal to participate in GSA activities or to provide required monitoring of sustainability indicators; refusal to implement measures as may be required of the Member by the GSP, or which the Member has authority to impose on landowners and pumpers within the Member's jurisdiction. Involuntary removal may only be exercised by the Board after participating in a meet and confer process regarding the proposed involuntary removal and otherwise pursuing other reasonable efforts to resolve the Member's non-compliance, including third party neutral dispute resolution processes if appropriate as provided in Article 8.6. In the event of the involuntary removal of a Member the removed Member shall remain fully responsible for its proportionate share of all liabilities incurred by the Authority prior to the effective date of the removal.

**6.3 Withdrawal of Members.** A Member may, in its sole discretion, unilaterally withdraw from the Authority, effective ninety (90) days after receipt of written notice to the Authority, provided that the withdrawing Member will remain responsible for its proportionate share of any obligation or liability duly incurred by the Authority up until the effective date of the Member's withdrawal; except that, a withdrawing Member will not be responsible for any obligation or liability that the Member has voted against or has voiced its disapproval on at a Board meeting, provided the Member provides written notice of its withdrawal from the Authority within three days of the Board action. In the event the withdrawing Member has any rights in any property or has incurred obligations to the Authority, the Member may not sell, lease or transfer such rights or be relieved of its obligations, except in accordance with a written agreement executed by it and the Authority. The Authority may not sell, lease, transfer or use any rights of a Member who has withdrawn without first obtaining the written consent of the withdrawing Member.

**6.4 Termination.** This Agreement may be terminated and the Authority dissolved by a unanimous vote of the Board. However, in the event of termination each of the Members will remain responsible for its proportionate share of any obligation or liability duly incurred by the Authority, in accordance with Article 5. Nothing in this Article will prevent a Member from withdrawing from this Agreement and the Authority as provided for in this Agreement, or from entering into other joint exercise of power agreements.

**6.5 Disposition of Property Upon Termination.** Upon termination of this Agreement, the assets of the Authority shall be transferred to the Authority's successor, provided that a public entity will succeed the Authority, or in the event that there is no successor public entity, to the Members in proportion to the contributions made by each Member. If the successor public entity will not assume all of the Authority's assets, the Board shall distribute the Authority's assets between the successor entity and the Members in proportion to any obligation required by Articles 5.

**6.6 Rights of Member to Become GSA in Event of Withdrawal or Removal.** Upon withdrawal or involuntary removal of a Member, or termination of this Agreement pursuant to Article 6.4, whether occurring before or after June 30, 2017, the withdrawing or removed Member will retain all rights and powers to become or otherwise participate in a GSA for the lands within its boundaries. In such event the Authority and its remaining Members (i) shall not object to or interfere with the lands in the withdrawing or removed Member's boundaries being in a GSA, as designated by the withdrawing or removed Member or otherwise, (ii) shall facilitate such transition to the extent reasonably necessary, and (iii) shall withdraw from managing that portion of the Basin within the boundaries of the withdrawing or removing Member and so notify the California Department of Water Resources.

**6.7 Use of Data.** Upon withdrawal, any Member shall be entitled to use any data or other information developed by the Authority during its time as a Member. Further, should a Member withdraw from the Authority after adoption of the GSP by the Authority, it shall be entitled to utilize the GSP for implementation of SGMA within its boundaries.

## **ARTICLE 7: PROJECTS AND MANAGEMENT ACTIONS**

7.1 **Special Project Agreements.** Members may enter into special project agreements amongst themselves and with the Authority to achieve any of the purposes or activities authorized by this Agreement, and to share in the expenses and costs of such special project, for example, to share in funding infrastructure improvements within the boundaries of particular Members. Special project agreements must be in writing and documentation must be provided to each of the Members to this Agreement. No special project agreement undertaken pursuant to this Section 7.1 shall conflict with the terms of this Agreement or the GSP.

7.2 **Special Project Expenses.** Members that enter into special project agreements agree that any special project expenses incurred for each such special project are the costs of the special project participants, respectively, and not of the Authority or any other Members to this Agreement not participating in the special project. Special project expenses shall be paid by the parties to the respective special project agreements.

7.3 **Indemnification of Other Members; Special Projects.** Members participating in special project agreements, if the Authority is a party to such agreement, shall hold each of the other Members who are not parties to the special project agreement free and harmless from and indemnify each of them against any and all costs, losses, damages, claims and liabilities arising from the special project agreement. The indemnification obligation of Members participating in special project agreements shall be the same as specified in Article 5.3 for Members in general, except that they shall be limited to liabilities incurred for the special project.

7.4 **Identified Management Actions.** In the development of this Agreement certain Members have identified particular activities and strategies that should be considered by the Authority as it develops the GSP. Without predetermining how these activities and strategies will be considered and implemented, the Members hereby direct the Authority to consider the following in the development of the GSP, without limitation:

- a. Formation of management areas or other tools to address unique or particular circumstances in the Basin;
- b. Development of water budgets and other accounting practices to facilitate sustainable groundwater management;

This MOA shall hereinafter be known as the Colusa County Groundwater Sustainability Agency MOA.

**Recitals**

WHEREAS, on September 16, 2014 Governor Jerry Brown signed the Act into law; and

WHEREAS, the Act went into effect on January 1, 2015; and

WHEREAS, the Act was amended on January 1, 2016; and

WHEREAS, the Act requires, among other things, sustainable management of groundwater basins, local management of groundwater, minimum standards for sustainable groundwater management, and provides local agencies with the authority and the technical and financial assistance necessary to sustainably manage groundwater; and

WHEREAS, section 10720.7 of the Act requires that all basins designated as high-or-medium priority basins designated in Department of Water Resources Bulletin 118 be managed under a Groundwater Sustainability Plan, or coordinated Groundwater Sustainability Plans, pursuant to the Act; and

WHEREAS, the Colusa Subbasin is located within the Sacramento Valley Basin and is designated as a medium priority basin; and

WHEREAS any local public agency is eligible to become a Groundwater Sustainability Agency (GSA); and

WHEREAS, a local public agency is defined in Section 10721 of the Act as an agency having water supply, water management, or land use responsibilities within a groundwater basin; and

WHEREAS, each of the Parties to this MOA is a local public agency within or partially within the County of Colusa and the Colusa Subbasin; and

WHEREAS several of the Parties have filed notices that they will act as a GSA for some portion of the subbasin within Colusa County.

## Exhibit C

WHEREAS, there are groundwater extractors in the Colusa Subbasin, including private individuals and corporations, which are outside of the boundaries of public agencies signatory to this MOA, other than the County (“Unaffiliated Extractors”); and

WHEREAS, Unaffiliated Extractors in the Colusa Subbasin include Native American Tribes and federal agencies; and

WHEREAS, the water laws of the State of California recognize the priority of overlying groundwater rights relative to appropriative groundwater rights, and further recognize the correlative nature of overlying groundwater rights (that is, properties overlying a groundwater basin share an equal right and priority to the reasonable and beneficial use of the sustainable yield of the groundwater basin); and

WHEREAS, the Parties acting through this MOA intend to maintain an open line of communication and to work cooperatively with local Native American Tribes and federal agencies during SGMA planning and implementation; and

WHEREAS, the Parties, acting through this MOA intend to work cooperatively with other local agencies and Unaffiliated Extractors in the Colusa Subbasin to manage the Subbasin in a sustainable manner pursuant to the requirements set forth in the Act; and

WHEREAS, the Parties intend to execute a Joint Exercise of Powers Agreement pursuant to the Joint Exercise of Powers Act, Government Code Section 6500, et seq., for the purpose of forming a single GSA to manage the Colusa Subbasin consistent with the Act and pursuant to the principles in this MOA; and

WHEREAS upon future request and notification, the Parties will add other local public agencies as signatories to the intended joint powers agreement and members of the GSA;

NOW, THEREFORE, the Parties hereby agree as follows.

### **Section 1. Definitions**

4. “Beneficial Uses and Users” include, without limitation, all current and future potential beneficial uses and users of groundwater in the Colusa Subbasin, as well as other parties responsible for implementing and carrying out the Plan.
5. “Committee” shall mean any committee established pursuant to this MOA.
6. “County” shall mean the County of Colusa in its role as a local public agency (as defined in the Act) and as a governing jurisdiction.
7. “Department” means the California Department of Water Resources.
8. “Effective Date” means the date on which the last Party executes this MOA.
9. “Fiscal Year” means July 1 through June 30.

## Exhibit C

11. "Member's Governing Body" means the respective Board of Directors or other voting body that controls each individual local public agency that is signatory to this MOA.
12. "Party" and "Parties" shall mean all organizations, individuals and collectives that are signatories to this MOA.
13. "Plan" refers to the Groundwater Sustainability Plan adopted by the Agency in coordination with the [Stakeholders/Beneficial Interests] pursuant to the Agreement.
14. "State" means the State of California.
15. "Subbasin" or "Colusa Subbasin" means the Colusa Subbasin as defined in State of California Bulletin 118.

### **Section 2. Purpose**

- 2.1 The purpose of this MOA is to describe general and specific principles that reflect mutual understanding of the Parties concerning commitments and obligations associated with implementing the Act in the Colusa Subbasin to lead to the creation of a multi-party joint powers agency that will serve as the Agency.
- 2.2 This MOA also describes the Parties' understanding of the Agency's initial tasks and associated potential costs to implement the Act (as described in Section 6).
- 2.3 A potential purpose for this MOA is to serve as the legal agreement by which the Parties operate as a Groundwater Sustainability Agency during the time that the Parties are creating a multi-party joint powers agency that will serve as the Agency.

### **Section 3. Term**

- 3.1 This MOA shall become effective upon execution by each of the Parties and shall continue in full force and effect until the earliest of the following events occurs:
- 3.1.1. Execution of the Agreement, or
  - 3.1.2. Twelve months from the date of execution of this MOA.

### **Section 4. General Principles of Understanding**

This Section 4 reflects the mutual general goals, objectives and understandings of the Parties to this MOA with respect to development of the Agreement.

- 4.1 A partnered approach should be fostered for sustainable groundwater management in the Colusa Subbasin that, among other things, supports the Act; achieves sustainable conditions in the Subbasin; reflects mutual respect for each Party's discretion, governmental authority, expertise, knowledge of groundwater conditions, rights, needs and concerns; and ensures appropriate representation of all Beneficial Uses and Users.
- 4.2 Local control of groundwater and compliance with the Act should be preserved to the maximum extent practicable, and State intervention to implement the Act should be avoided to the extent possible.

## Exhibit C

4.3 Implementation of the Act may be expensive and all Beneficial Uses and Users will need to contribute to implementation. Failure to implement the Act locally could result in State intervention and even greater costs and regulation.

4.4 A partnered approach to groundwater management and implementation of the Act is in the best interest of Beneficial Use and Users within the Agency boundaries because it will maximize efficiencies, keep costs at a minimum and capitalize on skills and strengths of various partners provided that such proposed partnership also creates and maintains collegial relationships and flexible implementation of the Act.

4.5 As authorized by Section 10723.6 (a) of the Water Code, the Parties intend to form and participate in a single multi-agency GSA covering the portions of the Subbasin that lie within the County. To this end, the Parties intend to execute an Agreement and form the Agency not later than June 30, 2017, and the Agreement will include procedures for other local agencies within the Colusa Subbasin to be added to the Agreement and the Agency at a later date.

4.6 Local agencies within the Colusa Subbasin that are Parties to this MOA, and which have previously filed with the Department notices to become GSA's for their respective service areas, will concurrently with one another, and upon execution of the Agreement formally withdraw said notices, not later than June 30, 2017, and will comply with and carry out the Act through the Agency in cooperation with Beneficial Uses and Users. If the Agreement is not executed and the Agency is not formed by June 30, 2017, the local agencies will comply with and carry out the Act in cooperation with Beneficial Uses and Users through this MOA until one of the events in Section 3.1 occurs.

4.7 Pursuant to the Act, all Beneficial Uses and Users of groundwater will be subject to the Agreement and Plan, and the Parties intend that all Beneficial Uses and Users will cooperate with the Agency and abide by the guidelines put forth in the Agency's Plan for the Subbasin.

4.8 Being a Party to this MOA is not a condition to participate in Plan development. All Beneficial Uses and Users have an equal opportunity, either directly or through appropriate representation on the governing board of the Agency, to participate in Plan development.

4.9 No Party's land or property use, or any other authority, is limited by this MOA.

4.10 Sustainable groundwater conditions in the Colusa Subbasin are critical to support, preserve, and enhance the economic viability, social well-being and culture of all Beneficial Uses and Users, including tribal, domestic, municipal, agricultural, and industrial users.

4.11 Unsustainable groundwater practices threaten the groundwater resources of all groundwater users in the Colusa Subbasin.

4.12 Aquifers within the basin can be threatened by unsustainable management of groundwater resources.

4.13 Economic prosperity and healthy natural resources in the County can be threatened by the lack of available groundwater and surface water resources, and such threats should be avoided to the maximum extent practical.

## Exhibit C

4.14 All Beneficial Uses and Users should have an open, transparent and timely opportunity to engage with the Agency and to provide input on Plan development and implementation of the Act. Extensive outreach is a priority of all Parties to this MOA, to inform Beneficial Uses and Users about implementation and potential effects of the Act, and to ensure Beneficial Uses and Users are involved in the process where practical.

4.15 Implementation and enforcement of the Plan should take place at the most local level possible and should allow each Party maximum input to any Plan chapter or section applicable to the Party and the Beneficial Uses and Users that exist or will exist in a Party's service area or jurisdiction, and should reflect the Party's authority and desire to manage the water resources available to its constituents or customers, provided such management is consistent with sustainability requirements of the Act and Plan.

4.16 Overlying landowners in the Colusa Subbasin have a right to share in the sustainable yield of the Subbasin for reasonable and beneficial use on overlying land.

4.17 Act implementation is new for all County Beneficial Uses and Users, and there are many unknowns. Willingness by Parties and Beneficial Users to adapt and adjust during Agency formation and Plan development and implementation is crucial to success.

4.18 Achieving and maintaining groundwater sustainability for the good of all groundwater beneficial users in the County is the Agency's first priority and main focus, especially in the early stages of Act implementation while all Beneficial Uses and Users work together to alleviate any existing fear and distrust.

4.19 The Parties understand and agree that this MOA and a Party's execution of the Agreement and participation in the Agency are subject to multi-party agreements being executed in other portions of the Colusa Subbasin outside of Colusa County for purposes of compliance with the Act. If similar multi-party agreements are not executed in other portions of the Colusa Subbasin outside of Colusa County, than a Party whose jurisdiction extends to portions of the Colusa Subbasin outside of Colusa County may withdraw from this MOA or the Agreement, and proceed independently under the Act.

### **Section 5. Specific Principles of Understanding**

This Paragraph 5 reflects the Parties' mutual specific goals, objectives and understanding concerning development of the Agreement and the Agency, and future implementation of the Act.

#### **5.1 Governance and Implementation of the Act**

5.1.1 Pursuant to Water Code section 10724, and for purposes of making appointments to the governing board of the Agency, the County will represent the common and unique interests of groundwater extractors located in the areas of the Subbasin that are not within the jurisdictional boundary of local agencies that are a Party to the Agreement, other than the County.

5.1.2 The Agency will implement the Act in a manner that optimizes the Act's goals to achieve sustainable groundwater conditions which support the vital agricultural economy in the County, other industry, and domestic and public water uses.

## Exhibit C

5.1.3 The governing board of the Agency will, consistent with state law regarding joint powers authorities, reflect diverse representation of Beneficial Uses and Users within the Colusa Subbasin and will include representatives of Parties to the Agreement. Mutual water companies and other private pumpers may be represented on the governing board as County appointees.

5.1.4 The Agency will pursue financial and infrastructure solutions and beneficial partnerships with Parties and other entities to provide sustainable water supplies within the Colusa Subbasin.

5.1.5 Local agencies that are signatories to the Agreement will reserve the right to withdraw from the Agreement and Agency if the local agency determines it is no longer in the Party's best interests to remain in the Agency. Any local agency that is formed after the date of the Agreement will have the right to become a Party to the Agreement and participate in the governance of the Agency.

5.1.6 Governance and implementation under the Agreement will be designed to avoid duplicative or conflicting governmental authorities to the maximum extent possible. Each Party will have maximum input regarding provisions of the Plan affecting groundwater within its own boundaries. Each Party retains and preserves powers and authority to regulate groundwater use within its boundaries so long as its actions are consistent with achieving sustainability consistent with the Groundwater Sustainability Plan (GSP).

5.1.7 As parties implement the Act within their respective boundaries, they will coordinate efforts with any adjacent areas within and outside of the Subbasin.

5.1.8 **Among other functions,** the Agency will work with local agencies and other Beneficial Uses and Users to coordinate and facilitate intra-basin water transfers as appropriate and to avoid one or more of the six undesirable results defined by the Act:

1. Chronic lowering of groundwater levels
2. A reduction in groundwater storage
3. Degradation in water quality
4. Land subsidence
5. Surface water depletion
6. Impacts on groundwater dependent ecosystems

## 5.2 Sustainability

5.2.3 Data collection and groundwater studies are essential to increase knowledge and to support groundwater management decisions. Funding and implementing such studies is a priority and a shared responsibility among all Agency Parties and other Beneficial Uses and Users. The specifics of such sharing will be an element of the Agreement.

5.2.2 Groundwater conditions throughout the County and Subbasin are not uniform. Conditions vary by location, surface water conditions, precipitation and water year type. While all Beneficial Uses and Users will share the obligation to achieve sustainability, solutions will need to reflect these geographic and hydrogeographic differences.

## Exhibit C

5.2.3 The Parties agree that the Plan encourages utilization of surface water to its full extent as available and feasible, and groundwater is conserved for use during dry periods when surface water is not readily available or affordable.

5.2.4 The Parties agree that the Plan should recognize the interconnectedness of groundwater and surface water resources, and contributions to the system from surface water use, distribution, and applications.

5.2.5 The Agency recognizes that groundwater recharge occurs through many different means. Applied surface water, precipitation, porous supply and drain ditches, and Best Management Practices utilized by beneficial users contribute to the basins recharge. Studies will quantify the availability of such recharge and provisions will be included in the GSP to ensure that future groundwater extractions are consistent with quantified recharge and the sustainable yield of the Colusa Sub-Basin.

5.2.6 The Parties agree that the Plan should encourage all Beneficial Uses and Users, whether using surface water or groundwater in the basin, to maximize the beneficial use water consistent with their respective rights, and provide for mitigation of impacts on waterways, creeks, streams and rivers.

5.2.7 The Parties agree that the Plan should encourage board members to act on behalf of and represent all landowners within their service areas to ensure collective compliance with the Act.

5.2.8 The Parties agree that the Plan should encourage surface water users to use surface water and groundwater for in-basin transfers to meet local demands. Following transfers will also occur both in and outside of the Subbasin, with transfer quantities based on avoided consumptive use.

5.2.9 The Parties agree that the Plan should encourage surface water transfers to potentially serve as a tool to settle disputes over environmental obligations such as dedication of surface water to environmental requirements in reservoirs, rivers, or the Bay-Delta or to mitigate impacts during drought periods which will include increased reliance on groundwater by surface water users. The Parties agree that the Plan should encourage Agency members to agree to coordinate and partner on actions that attempt to balance environmental solutions with groundwater sustainability.

### 5.3 Agency Financing and Support

5.3.1 The Parties agree that the Agreement and Plan should include provisions for Party contributions of capital and operating funds, personnel, services, equipment or property to cover the Agency and Plan development.

5.3.2 The Parties agree that the Agreement and Plan should encourage and recognize that there will be costs for the development, implementation and administration of the Plan, the Parties must agree on governance that maximizes the potential for State funding, and to allocate the local share of these costs by one or more mutually agreeable and equitable formulas (to be determined)

## Exhibit C

### 5.4 Flexibility of the Agency

5.4.1 The Parties agree that the Agreement and Plan should encourage maximum flexibility to adapt to changes in Agency membership, funding, planning oversight, et cetera, as the Parties build their relationships and mutual trust.

The water-measuring devices shall be installed by the groundwater sustainability agency or, at the groundwater sustainability agency's option, by the owner or operator of the groundwater extraction facility. Water-measuring devices shall be calibrated on a reasonable schedule as may be determined by the groundwater sustainability agency.

## Exhibit D

(c) A groundwater sustainability agency may require, through its groundwater sustainability plan, that the owner or operator of a groundwater extraction facility within the groundwater sustainability agency file an annual statement with the groundwater sustainability agency setting forth the total extraction in acre-feet of groundwater from the facility during the previous water year.

(d) In addition to the measurement of groundwater extractions pursuant to subdivision (a), a groundwater sustainability agency may use any other reasonable method to determine groundwater extraction.

A groundwater sustainability agency may do the following:

(a) Acquire by grant, purchase, lease, gift, devise, contract, construction, or otherwise, and hold, use, enjoy, sell, let, and dispose of, real and personal property of every kind, including lands, water rights, structures, buildings, rights-of-way, easements, and privileges, and construct, maintain, alter, and operate any and all works or improvements, within or outside the agency, necessary or proper to carry out any of the purposes of this part.

(b) Appropriate and acquire surface water or groundwater and surface water or groundwater rights, import surface water or groundwater into the agency, and conserve and store within or outside the agency that water for any purpose necessary or proper to carry out the provisions of this part, including, but not limited to, the spreading, storing, retaining, or percolating into the soil of the waters for subsequent use or in a manner consistent with the provisions of Section 10727.2. As part of this authority, the agency shall not alter another person's or agency's existing groundwater conjunctive use or storage program except upon a finding that the conjunctive use or storage program interferes with implementation of the agency's groundwater sustainability plan.

(c) Provide for a program of voluntary fallowing of agricultural lands or validate an existing program.

## Exhibit D

(d) Perform any acts necessary or proper to enable the agency to purchase, transfer, deliver, or exchange water or water rights of any type with any person that may be necessary or proper to carry out any of the purposes of this part, including, but not limited to, providing surface water in exchange for a groundwater extractor's agreement to reduce or cease groundwater extractions. The agency shall not deliver retail water supplies within the service area of a public water system without either the consent of that system or authority under the agency's existing authorities.

### **10726.4.**

(a) A groundwater sustainability agency shall have the following additional authority and may regulate groundwater extraction using that authority:

(1) To impose spacing requirements on new groundwater well construction to minimize well interference and impose reasonable operating regulations on existing groundwater wells to minimize well interference, including requiring extractors to operate on a rotation basis.

(2) To control groundwater extractions by regulating, limiting, or suspending extractions from individual groundwater wells or extractions from groundwater wells in the aggregate, construction of new groundwater wells, enlargement of existing groundwater wells, or reactivation of abandoned groundwater wells, or otherwise establishing groundwater extraction allocations. Those actions shall be consistent with the applicable elements of the city or county general plan, unless there is insufficient sustainable yield in the basin to serve a land use designated in the city or county general plan. A limitation on extractions by a groundwater sustainability agency shall not be construed to be a final determination of rights to extract groundwater from the basin or any portion of the basin.

(3) To authorize temporary and permanent transfers of groundwater extraction allocations within the agency's boundaries, if the total quantity of groundwater extracted in any water year is consistent with the provisions of the groundwater sustainability plan. The transfer is subject to applicable city and county ordinances.

(4) To establish accounting rules to allow unused groundwater extraction allocations issued by the agency to be carried over from one year to another and voluntarily transferred, if the total quantity of groundwater extracted in any five-year period is consistent with the provisions of the groundwater sustainability plan.

## Exhibit D

(b) This section does not authorize a groundwater sustainability agency to issue permits for the construction, modification, or abandonment of groundwater wells, except as authorized by a county with authority to issue those permits. A groundwater sustainability agency may request of the county, and the county shall consider, that the county forward permit requests for the construction of new groundwater wells, the enlarging of existing groundwater wells, and the reactivation of abandoned groundwater wells to the groundwater sustainability agency before permit approval.

*(Amended (as added by Stats. 2014, Ch. 346) by Stats. 2014, Ch. 347, Sec. 12. Effective January 1, 2015.)*

### **10726.5.**

In addition to any other authority granted to a groundwater sustainability agency by this part or other law, a groundwater sustainability agency may enter into written agreements and funding with a private party to assist in, or facilitate the implementation of, a groundwater sustainability plan or any elements of the plan.

*(Added by Stats. 2015, Ch. 666, Sec. 3. Effective January 1, 2016.)*

### **10726.6.**

(a) A groundwater sustainability agency that adopts a groundwater sustainability plan may file an action to determine the validity of the plan pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure no sooner than 180 days following the adoption of the plan.

(b) Subject to Sections 394 and 397 of the Code of Civil Procedure, the venue for an action pursuant to this section shall be the county in which the principal office of the groundwater management agency is located.

The local agency may use the local agency's authority under any other law to apply and enforce any requirements of this part, including, but not limited to, the collection of fees.
