NEWS BRIEF: Colusa County Transit Agency Suspends Operations in Compliance with COVID-19 (Coronavirus) Guidelines.

Effective immediately, Colusa County Transit Agency has suspended public transportation services in response to COVID-19 (Coronavirus) guidelines leading to a lack of available staffing to support services.

“Current COVID-19 guidelines prevent us from operating at full capacity in a safe and timely manner,” said Mike Azevedo, Colusa County Public Works Director. “We are committed to providing quality services, and cannot operate in this fashion at this time. We apologize for the inconvenience as we work through this current surge.”

Services are expected to resume Wednesday, January 26, 2022 pending any additional positive cases or a change in guidelines.
